

BERGEN
Chair
By Hallgeir Homstvedt

OFFECCT

PRODUCT INFORMATION

"I designed this chair for the competition which I won for the furnishing of the newly renovated auditorium in the Bergen University, originally built in 1894. The imposing window valves in the room were important as inspiration. The shapes are reflected in the square back and the circular seat. The chair's character lies in the meeting between these two surfaces, giving the impression of floating in the air, with only a small concealed point of attachment. This gives the chair a minimalistic and slender character, with good stacking capacity", says Hallgeir Homstvedt.

Benefits & functions

- Can be upholstered both in fabrics or leather.
- Stackable.
- Sledge base possible in Offecct Flexicolor.

ENVIRONMENTAL LABELING
