

BIRD  
Table  
By Broberg & Ridderstråle

---

OFFECCT

## PRODUCT INFORMATION

The idea to Bird came when the creators visited the the Swedish Museum of Natural History in Stockholm to collect inspiration. Bird is a different 'single table' whose design brings the mind to a bird's leg. With a connected form and special design the table has its own expression but remains easy to apply.

Bird can stand alone or complement different seating constellations. Bird has a graphic yet dynamic form language due to its many directions. The unique foot consists of a water-cut sheet and a triangular pipe that has the features of a bird's foot.

## TECHNICAL INFORMATION

Available for the United States market.

Table top in texture lacquered MDF, NCS 0602-G06Y ≈ RAL 9003. Frame in lacquered metal, RAL 9010. Felt glides.
