

EZY LOW
Chair
By Christophe Pillet

OFFECCT

PRODUCT INFORMATION

In 2014 Christophe Pillet and Offecct launched the comfortable and timeless collection Ezy, which consists of a easy chair, a barstool and a series of tables. Though, originally designed for the famous Pullman Paris Eiffel Tour Hotel, the new additions to the collection offers more ways to enjoy its comfort be it in a meeting, at a bar, at home or in an office.

"Instead of making something strange, visible and loud, I wanted to make something very normal, simple and elegant. The purpose of the Ezy collection was to make a super functional, normal and long lasting design", says Christophe Pillet about the origin of the Ezy collection.

During the past year, the product development team of Offecct has worked closely with Christophe Pillet to create additions to the collection. It now features a new chair series available in different versions; a thin steel frame, swivel, wooden legs and high back. The table series has also been extended with amongst other a high table.

"The first pieces of Ezy collection were contract use oriented in terms of dimensions and proportions. By adding these new furniture to the collection, which also works in a domestic environment, we have made it more universal", says Pillet.
