

## Wind table Jin Kuramoto

### JIN KURAMOTO

Jin Kuramoto graduated from Kanazawa College of Art in 1999 and founded his own design studio in Tokyo in 2008. The studio applies its strong, clear and innovative design philosophy to products in the furniture, home electronics, automotive and daily necessities markets. The studio's clients include brands such as Arflex Japan, Toyota, Nikon, Sony, Audio-Technica and Honda.

Following the instant success of our *Wind* room dividers, Jin Kuramoto has designed a new side table with his same trademark irregular, organic shapes. The table was commissioned exclusively for the new Zander K hotel in Bergen, Norway, with interiors by architects Claesson Koivisto Rune. The table comes in two heights, manufactured in a monochrome, stone-resembling material.

**INSPIRATION FOR THE TABLE** "I like to see the tables as rocks in a forest," says Jin Kuramoto.

"As the *Wind* room dividers became so popular even before they were properly launched, there is demand for a table that speaks the same organic form language," says Anders Englund, Design Manager at Offecct. "They are designed to work together in for example a hotel lobby or in an office landscape, but the table will also hold its own very well in any kind of interior environment."
